

Distribution of Levitation Altitude Across Experiments

Source: Task 2 EDA Cleaned Data

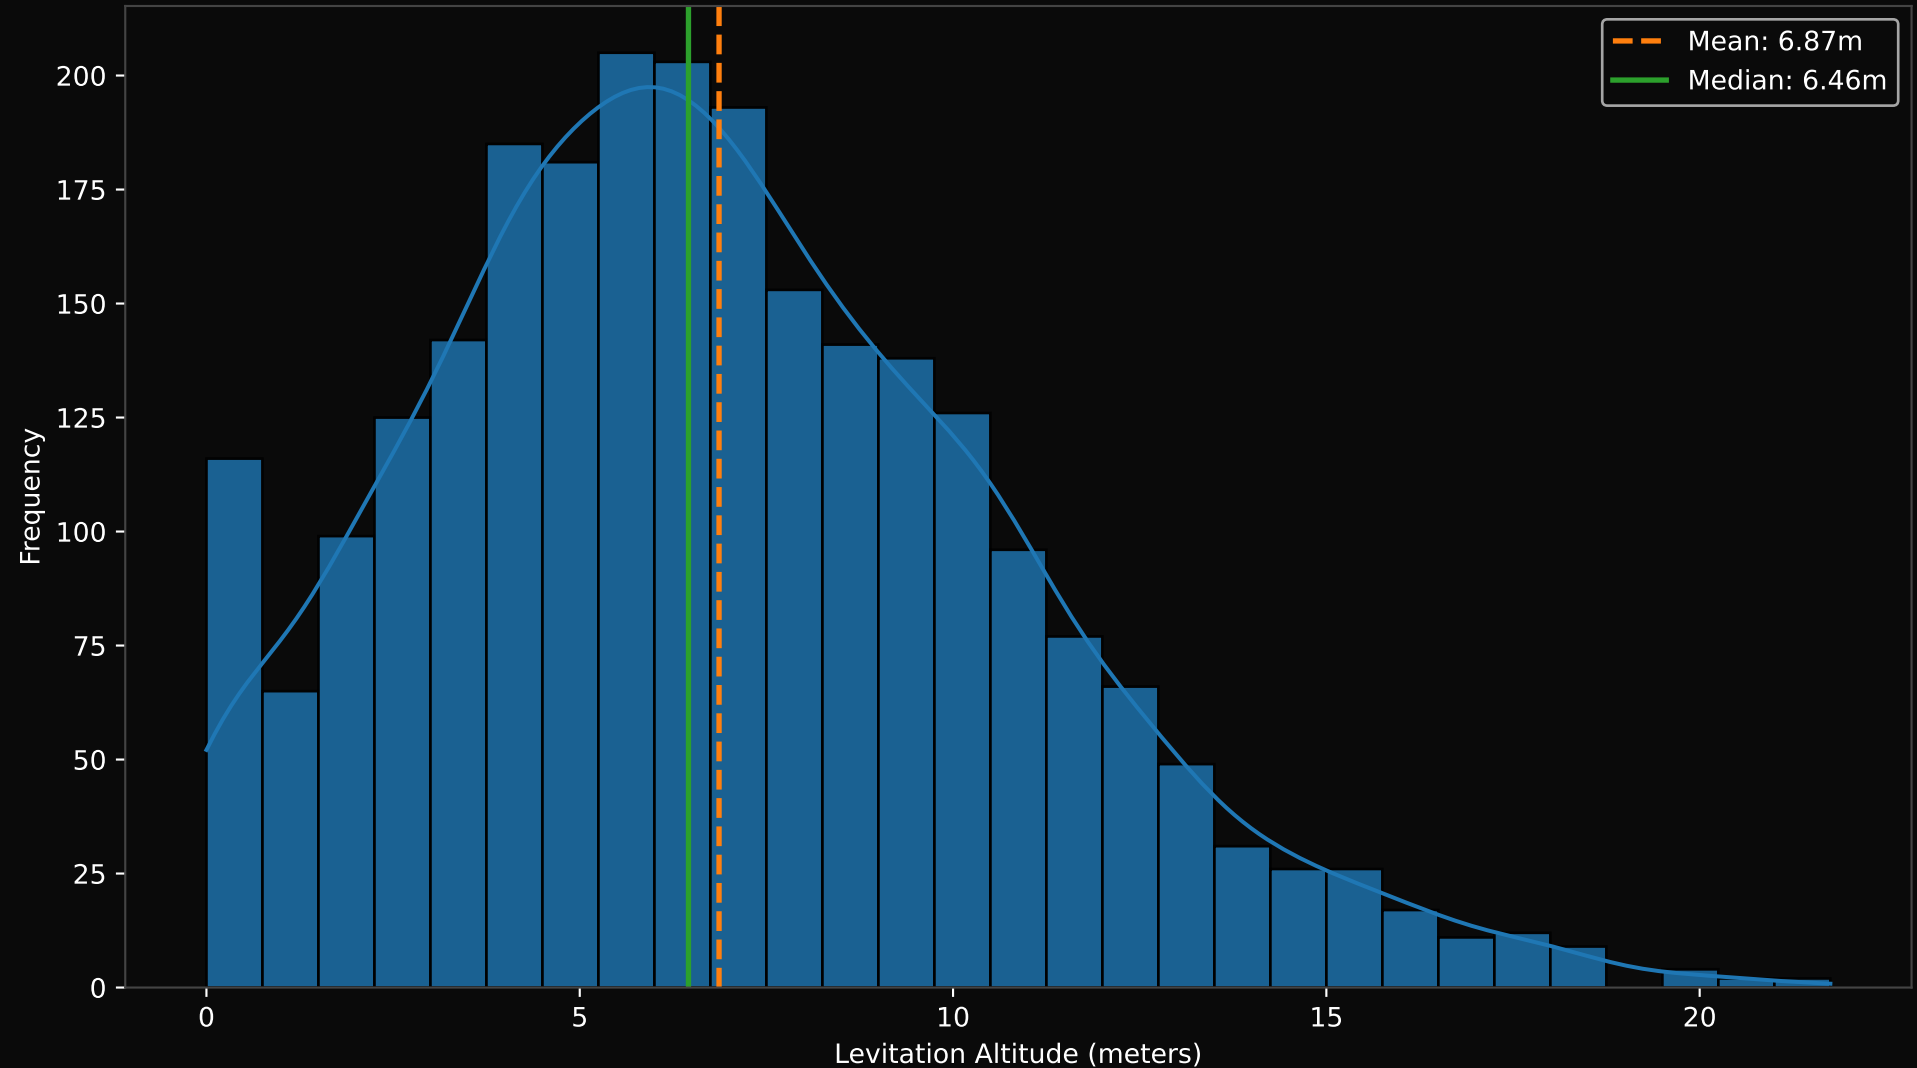

Chart 1: Histogram showing the distribution of achieved levitation altitudes.

Average Levitation Height by Material Type

Source: Task 2 EDA Cleaned Data

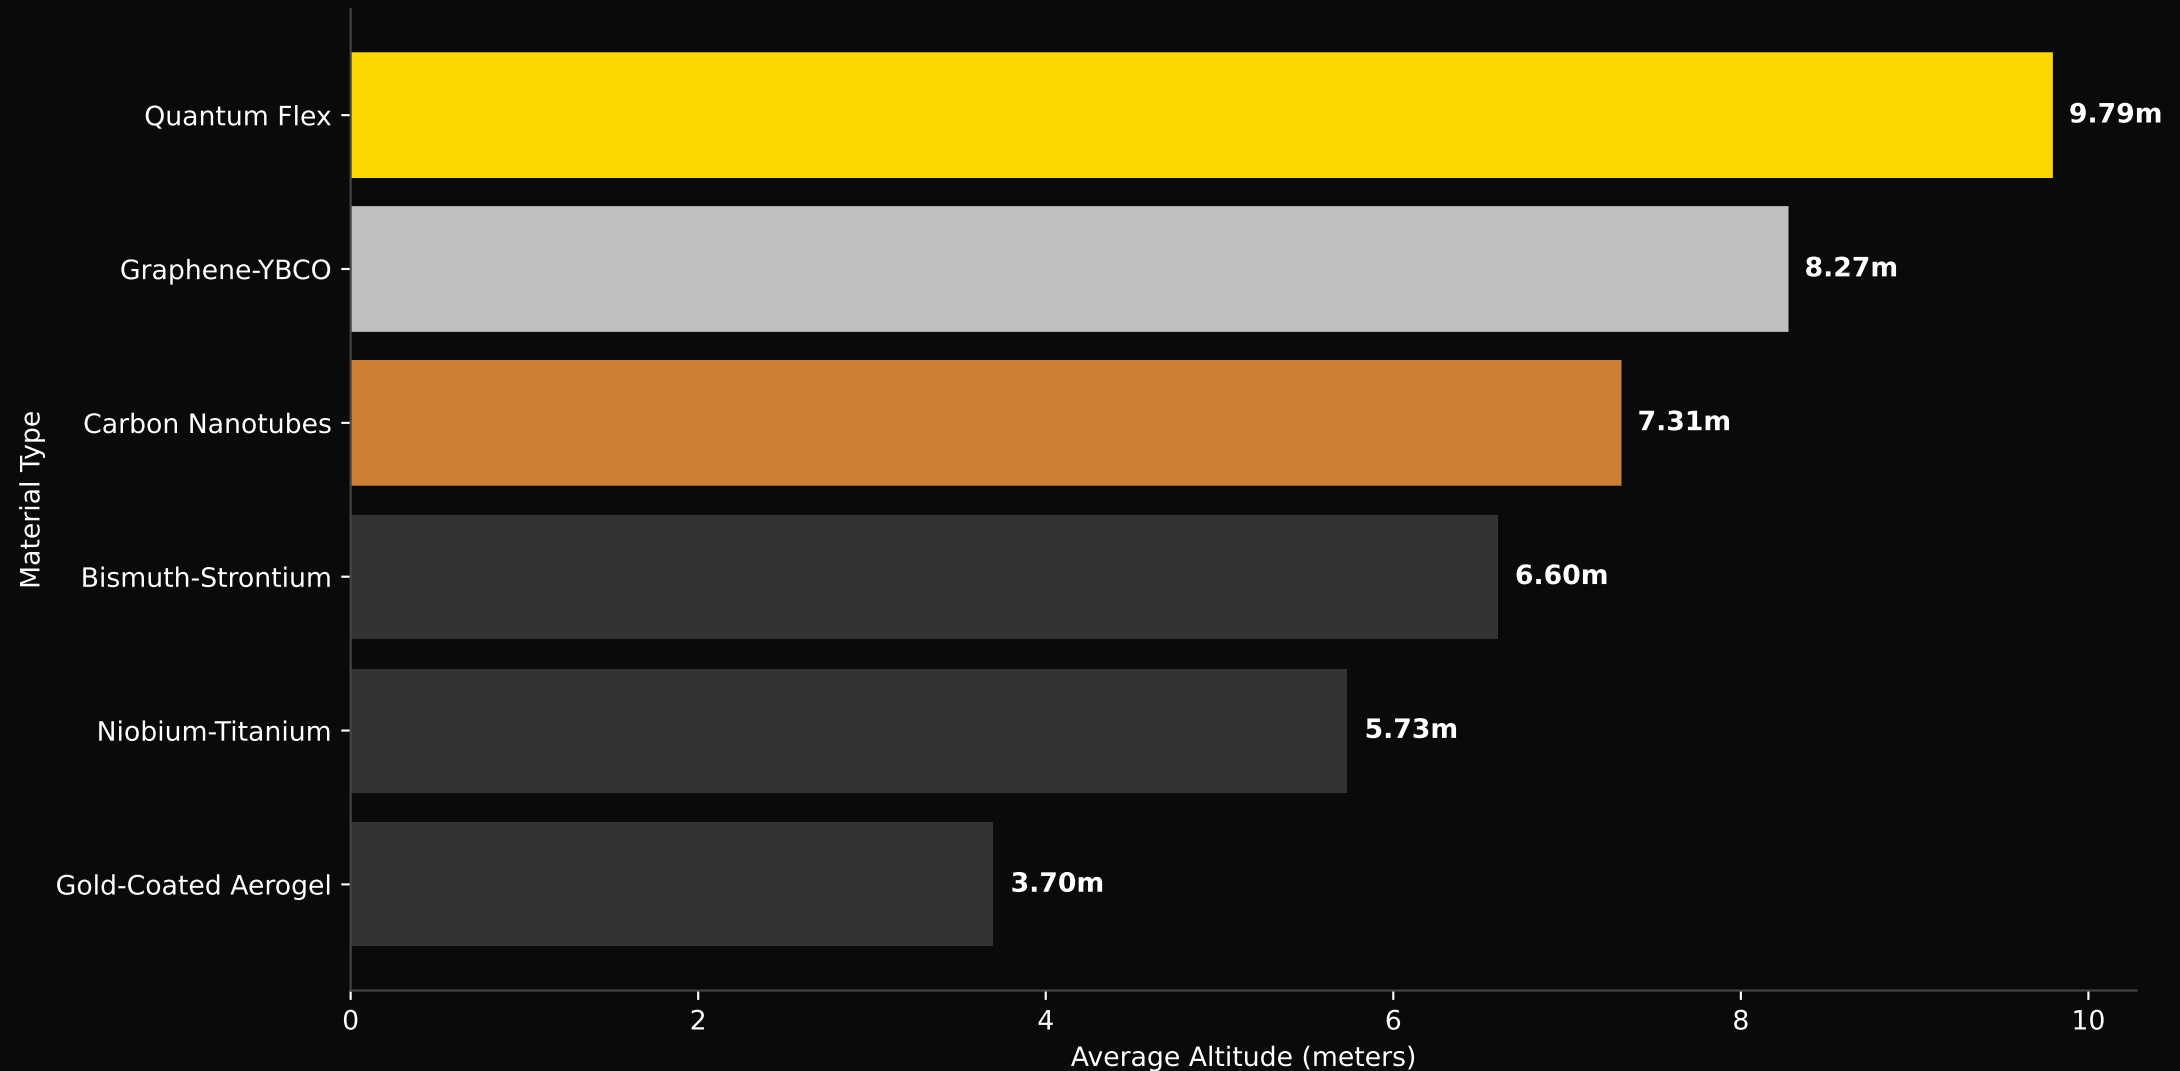

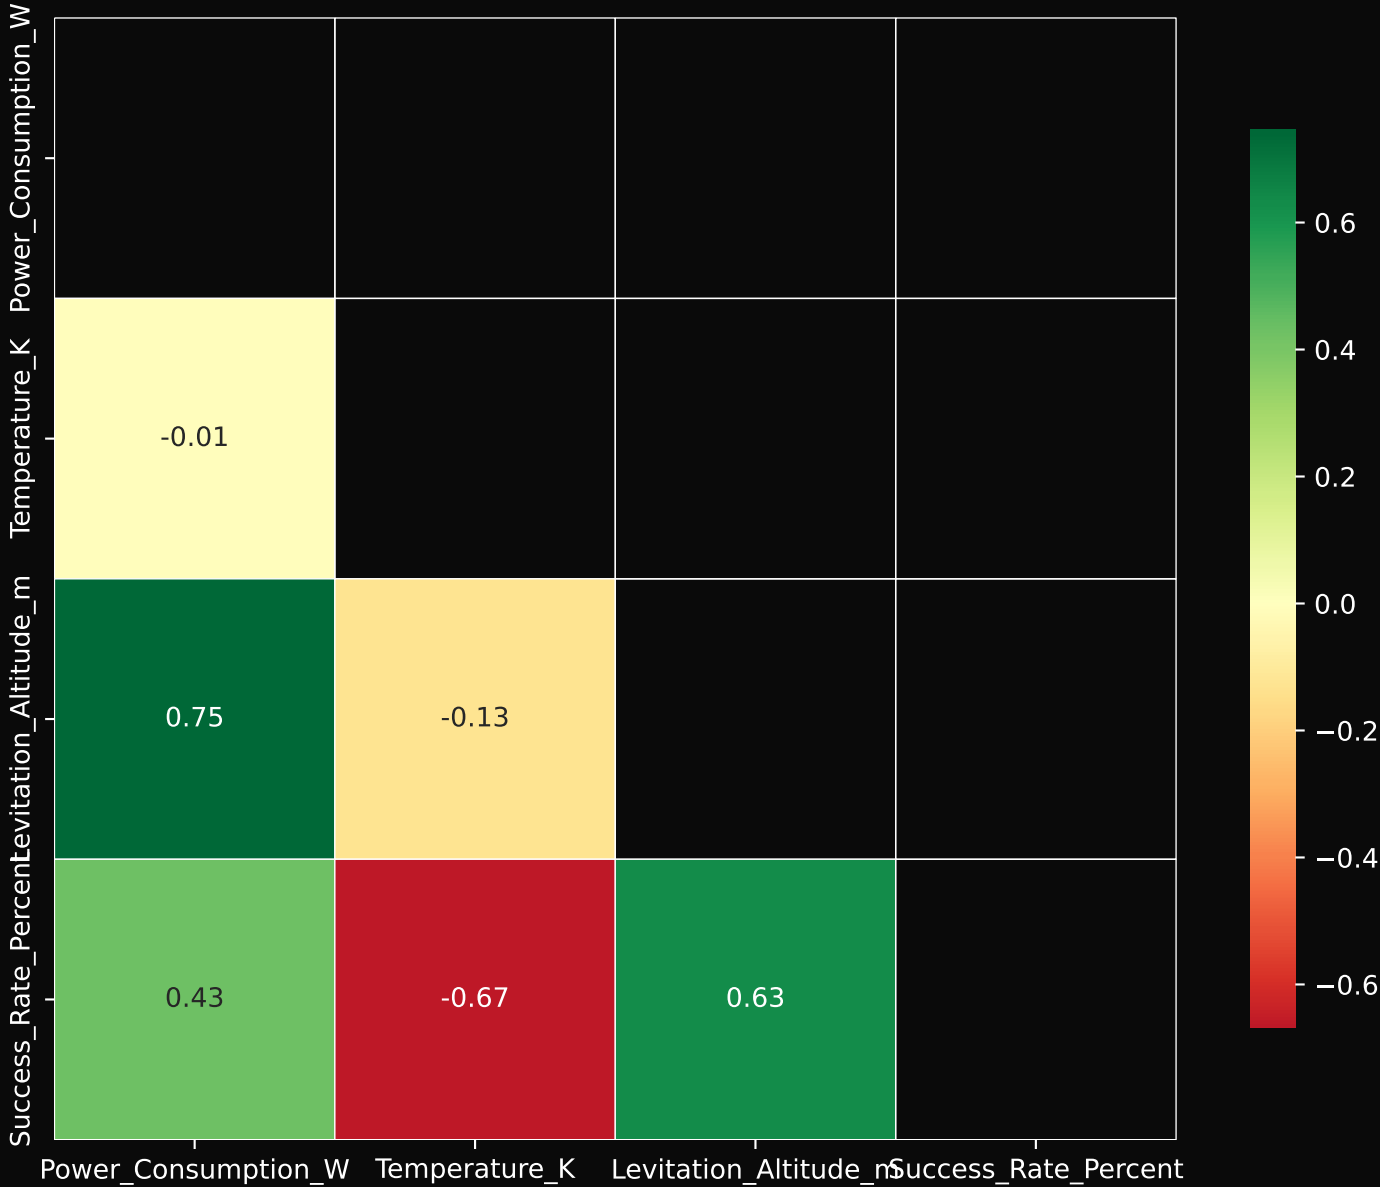

Chart 2: Horizontal bar chart ranking materials by average levitation altitude achieved.

Feature Correlation Matrix — Levitation Dynamics Parameters

Source: Task 2 EDA Cleaned Data

Power Consumption vs Levitation Altitude

Source: Task 2 EDA Cleaned Data

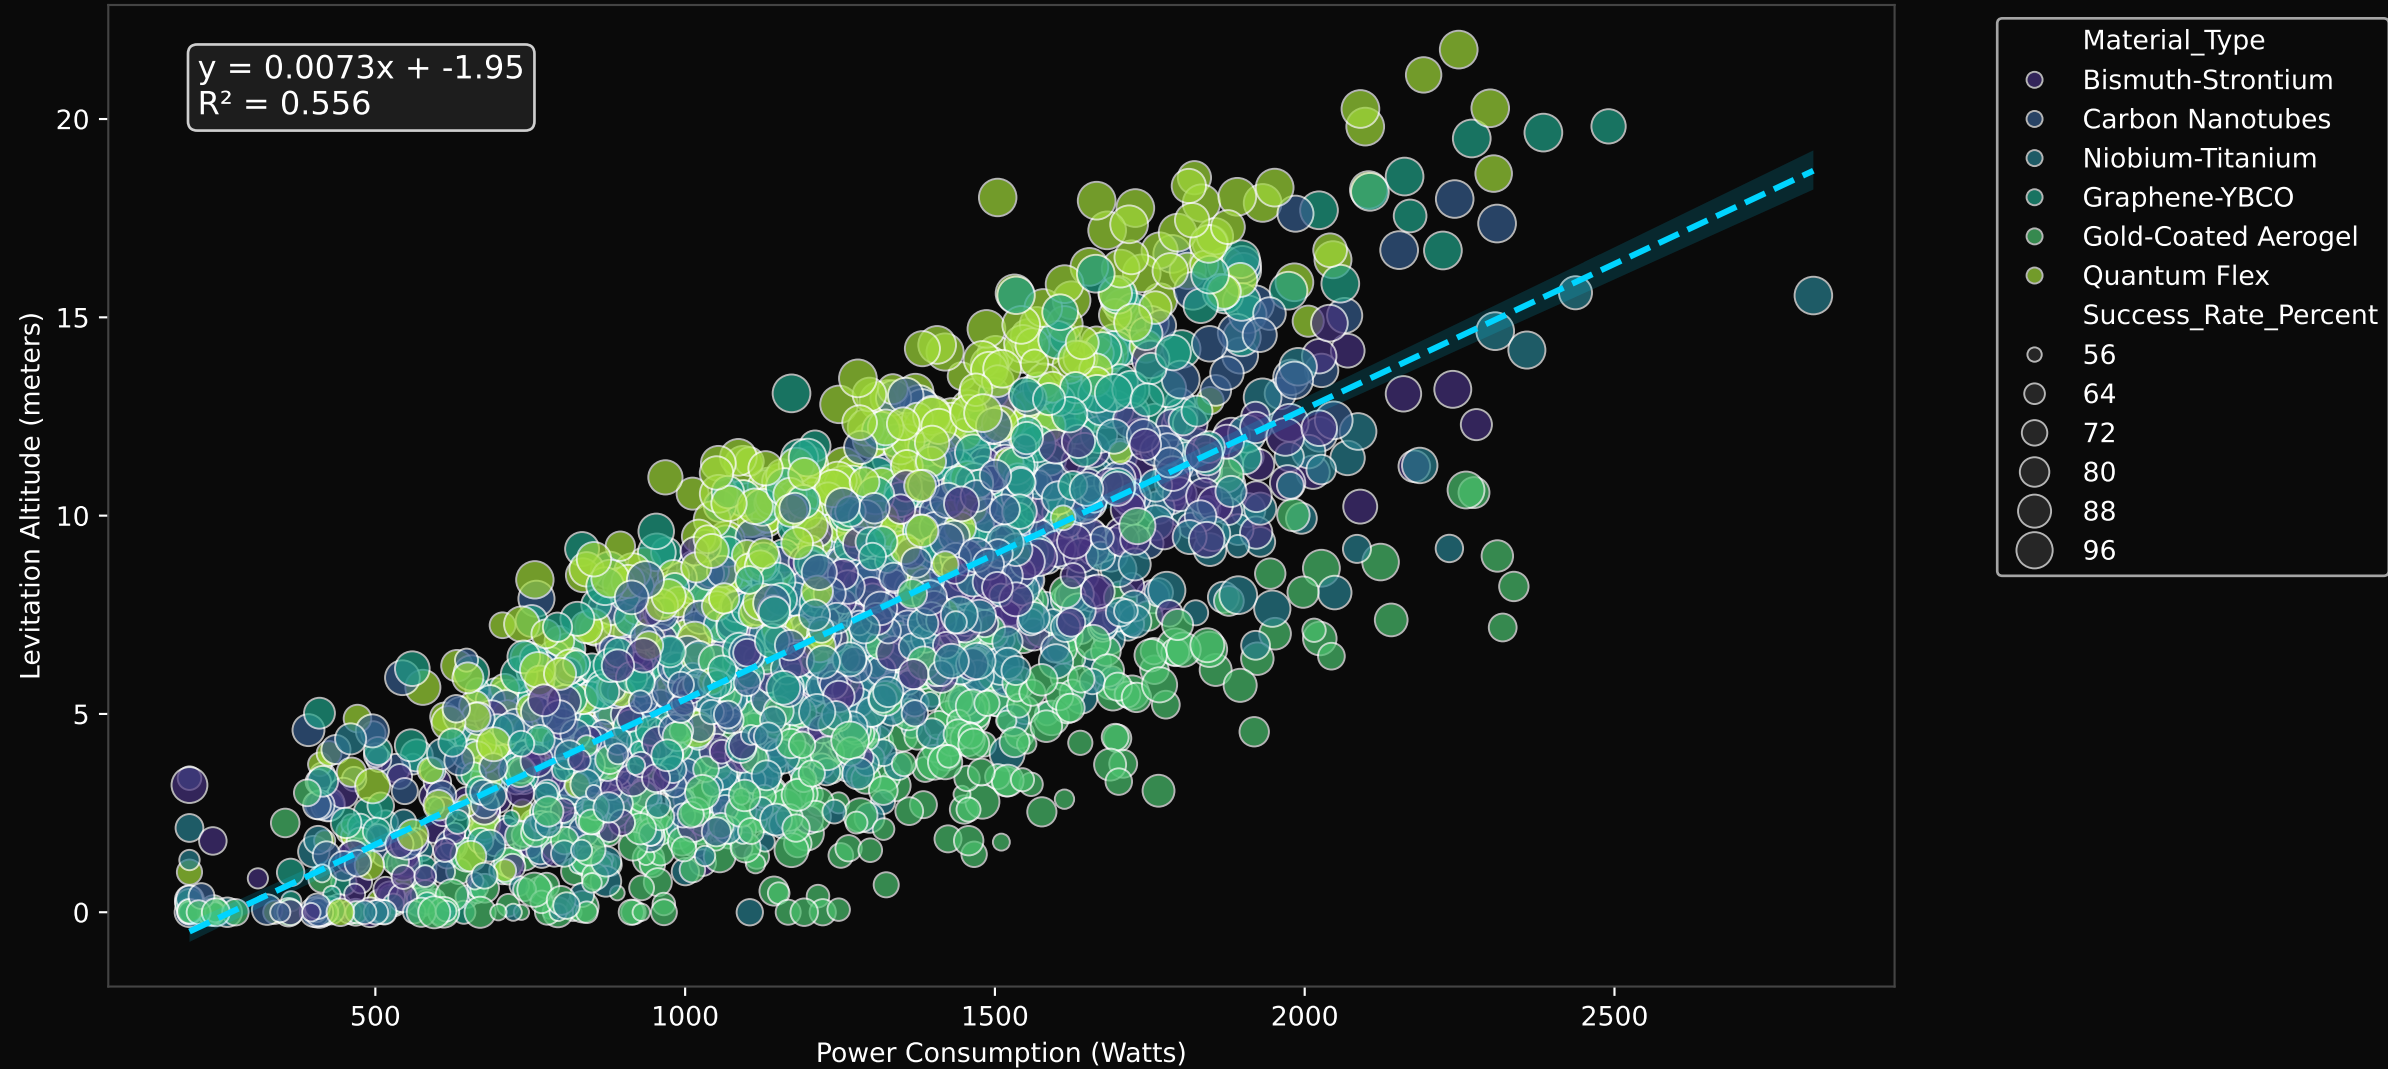

Chart 4: Scatter plot demonstrating the relationship between power and altitude.

Monthly Experiment Success Rate Trend

Source: Task 2 EDA Cleaned Data

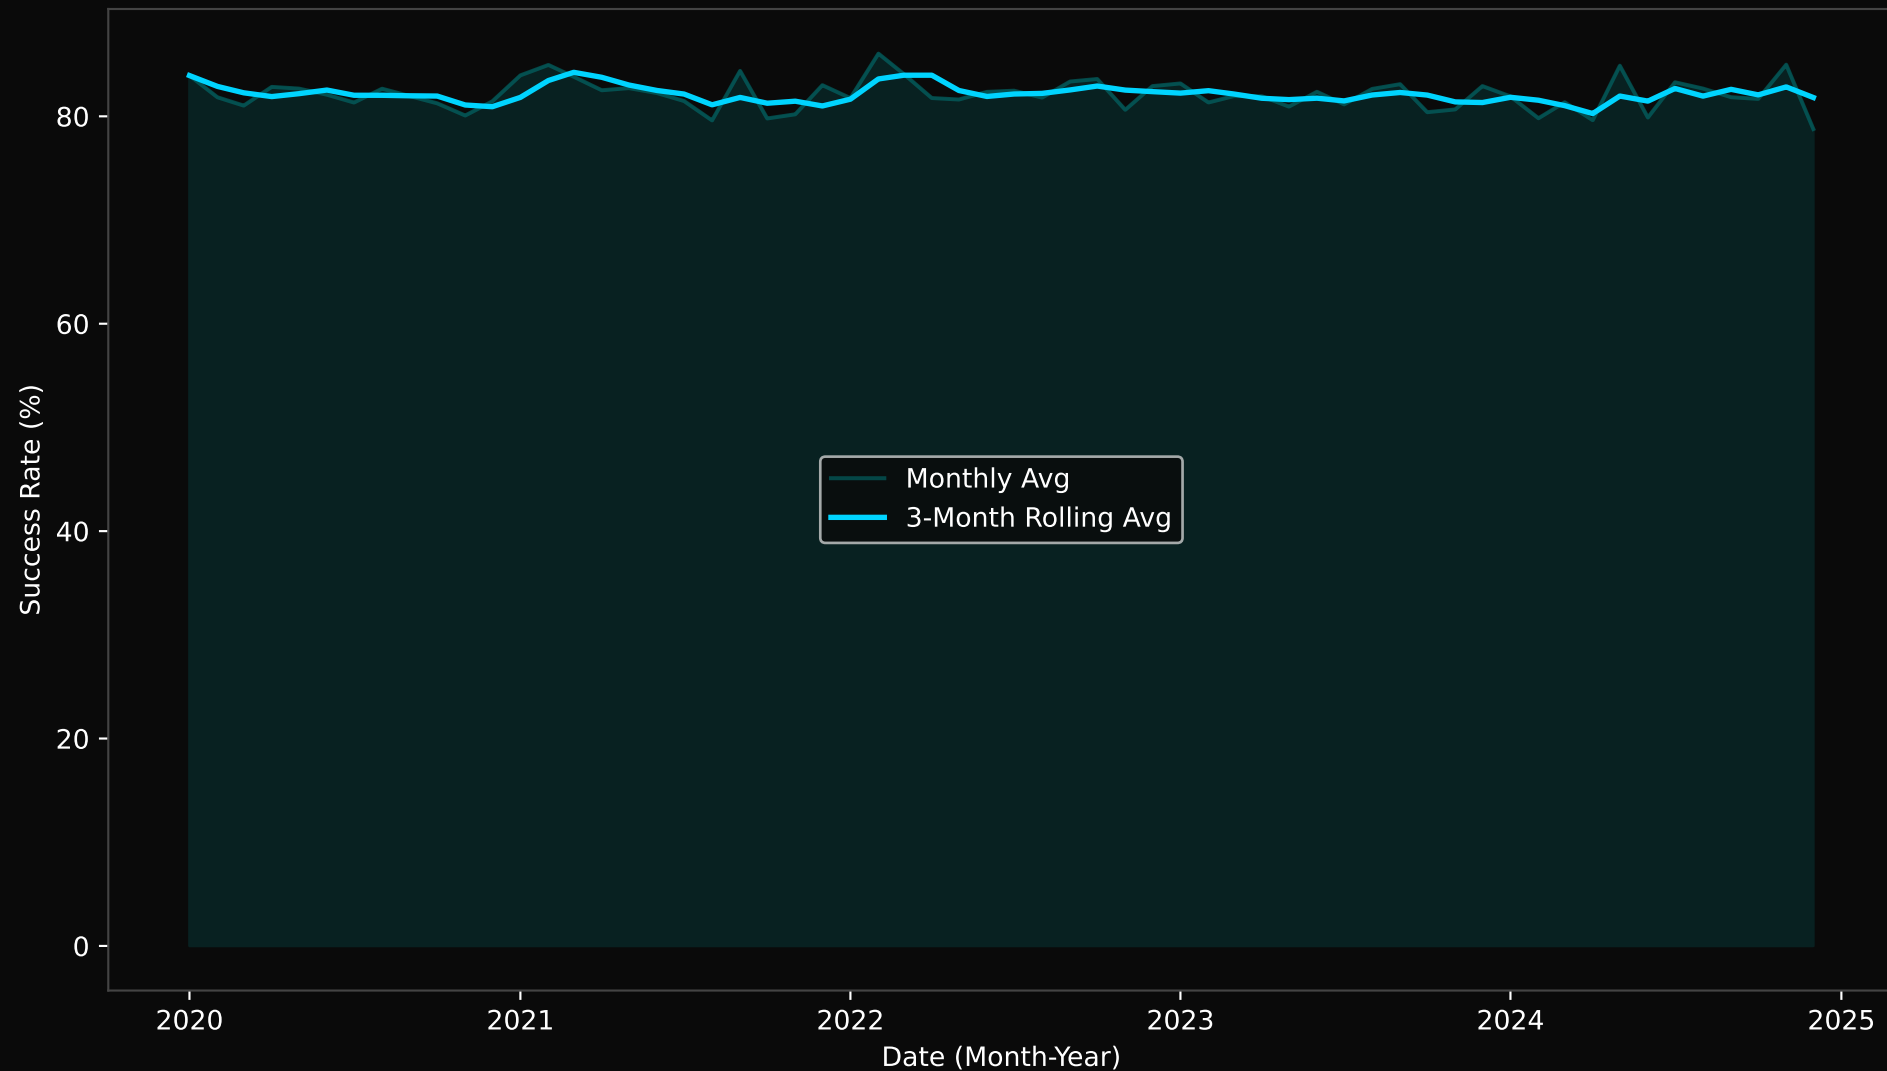

Chart 5: Trend of experiment success rates over time with area fill.

Levitation Performance Distribution by Lab
